PASTURE AND HAYLAND PLANTING**

(Acre)

**Code 512**

**Supplement No. 1 - Addition of 'B-Dahl' variety of Old World Bluestem to Pasture and Hayland Planting (512)**

Species	Planting Zones	Planting Rate Per Acre	Planting Date	Remarks
'B-Dahl' old world bluestem	SW, SE  South of I-40	1-3 PLS	2/1 – 6/1	Introduced, perennial warm season grass. Produces a thick stand suited well for both haying and grazing. Proper management is critical due to potential freeze damage in winters with prolonged temperatures below freezing. Stands have shown to recuperate well when properly managed prior to freezing weather.

**All other requirements are found in the Pasture and Hayland Planting (512) Standard dated September 2007 including applicable footnotes related to OWB.**
